How Dewey find the books?

The Dewey Decimal System is a way to keep items in order by subject. It helps you find what you are looking for! In this system, books are numbered, from 000 to 999, and every topic has a number. The more specific the topic, the more specific the number. For example, you can find nonfiction books about **Vikings** in the **948s**.

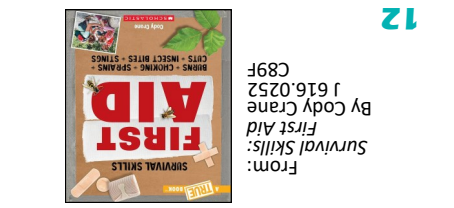

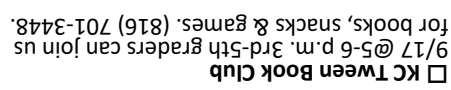

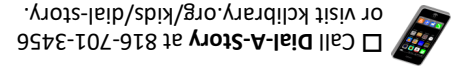

Viking By Susan Margeson J 948.022

Vikings By Libby Romero J READER 948.022

There's Nor-way you can get away!!

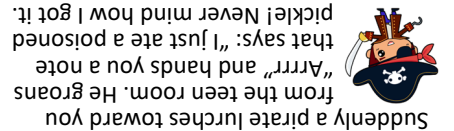

Are you kidding me? There is no place to hide on this page! It's full of Vikings! The troll eats you! The End.

From: **Survival Skills: First Aid** By Cody Crane J 616.0252 C89F

If you called the hotline and saved the pirate's life, proceed to storytime on page 5. If you read the pirate a poem, go to page 4 and see what the pirate says.

A. Call the Poison Control Hotline at (800) 222-1222. Help me! What do you do? Pickle! Never mind how I got it. Suddenly a pirate lurches toward you from the teen room. He groans "Arrrr" and hands you a note that says: "I just ate a poisoned pickle! Never mind how I got it."

Pirate in a pickle!

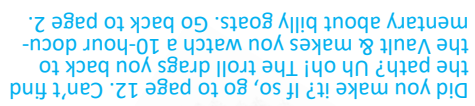

about pickles. (There's one on page 15!)

Did you make it? If so, go to page 12. Can't find the path? Uh oh! The troll drags you back to the Vault & makes you watch a 10-hour documentary about billy goats. Go back to page 2.
