This month in CYS

How Dewey find the books?

The Dewey Decimal System is a way to keep items in order by subject. It helps you find what you are looking for! In this system, books are numbered, from 000 to 999, and every topic has a number. The more specific the topic, the more specific the number. For example, you can find nonfiction books about **photography** in the **770s**.

770s

Guide to Photography
 By Nancy Honovich
 J 770 HONOVICH

Seeing Things
 By Joel Meyerowitz
 J 770.1 M615

What kind of photos do snails take? Shellfies! 🐌

8

000-099	general stuff (computers, UFOs, world records, journalism, libraries, things like Bigfoot) 🛸
100-199	philosophy & psychology (feelings, self-help, dreams, spooky stuff) 😊
200-299	religion & mythology
300-399	social sciences (family, money, government, voting, holidays, transportation, folk & fairy tales) 📚
400-499	languages (dictionaries, grammar)
500-599	natural sciences (math, plants, weather, dinos, bugs, animals) 🦋
600-699	ways to use science (technology, health, cooking, pets, building) 🚀
700-799	art & recreation (crafts, fashion, dancing, music, games, sports) ⚾
800-899	literature (poetry, plays, jokes)
900-999	geography & history (pirates, flags, presidents, biographies, states, countries, family trees) 🌍

Help!

2. When was the entire Earth covered in ice?
 A: 2 billion years ago
 B: 700 million years ago
 C: 1 million years ago

Such a n-ice day!

1. How much of Earth's fresh water is ice?
 A: 44%
 B: 56%
 C: 68%

You ask me!

Brrr! Here's a really chill quiz!

Puzzler

Art scene!

Don't try this at home!

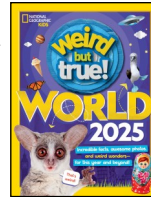

Unless your parents say OK!

British artist Sam Cox doodled his whole house, inside and out! He used 238 gallons of white paint, 401 cans of spray paint, and 286 bottles of drawing paint!

By Britney G. Borowiec
J 030.02
BOROWIEC

"Go on, give it a try! When you fold a piece of paper, you take something that is one layer thick and make it 2 layers thick. But when you fold it a second time, you take something 2 layers thick and make it 4 layers thick! Folding a third time will make 8 layers. Four folds will be 16, and so on. Each time, you're doubling the number of layers, so by the time you have folded it seven times, you have a whopping 128 layers!"
