1. What is the current list of equipment by branch?

**Current equipment numbers for the library are as follows. Not all equipment may be replaced, and some locations may be adjusted for final purchase numbers. Vendors are welcome to submit proposals based on these counts or their own formulaic counts based on provided transaction numbers. However, the library requires a per unit price for each quoted hardware model, with any volume discounts acknowledged in the final proposal in addition to any packages that the vendor automatically quotes in the proposal.**
