

Dewey by the numbers

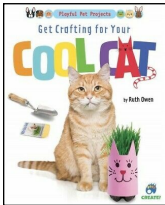

The Dewey Decimal System is a way to keep items in order by subject. It helps you find what you are looking for! In this system, books are numbered, from 000 to 999, and every topic has a number. The more specific the topic, the more specific the number. For example, you can find nonfiction books about **crafts** in the **745s**.

Ptarmigan
(Pronounced TAR-MA-GIN)
by Douglas Florian

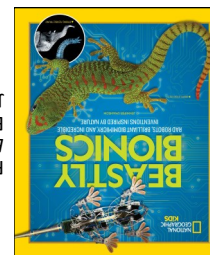

The ptarmigan's a ptimid bird that ptoddles on the ptundra. It hides in rocks and crevices— and ptucks itself in undra. When ptemperatures are ptemperate, the ptarmigans are ptan. Ptil winter comes along and then they ptturn white ptarm-again.
